# Paul H. Winslow Jr. "Skip"

Skip, was born in Millinocket, on Sept. 24, 1940

His 83 years were full of adventure, as his childlike heart embraced fun and learning at every opportunity.

Honesty and generosity were at the core of his spirit. Skip taught many people how to play dominoes and cribbage and spent \$2 bills just to see people's reactions and make them smile.

He enjoyed games and tiny cups of coffee with the Smithfield Social Citizens, where he was "the only rooster in the hen house". Relationships were the most important things in the world to Skip, and the communities he built wherever he went remain strong to this day.

## **A few words from Skip's Hens.....**

Skip -- a man of many words and a GIANTLY, generous heart! He ALWAYS "filled" the room!

Skip- the "Game Master!" His love of playing games was infectious. I don't think there was any game he couldn't play.

Skip-he was the ultimate trivia master. He knew some of the most obscure facts. I loved that he could remember the most interesting facts about a variety of topics. He also had the largest collection of \$1 coins, \$2 bills, and jack knives that I ever saw.

Skip-always bringing a smile to people's faces, whether by giving a coin, bill, or a kind word. He always made people feel special.

Skip-forever grateful for knowing you and learning about the great man you became on your life journey! So many life stories and always fascinated to hear them! You impacted so many lives in so many ways.

*All are welcome and invited to share their "Skip" Stories (because if you knew him, you've got one) at a celebration of his well-lived life on Saturday, July 6, at 10 a.m., at the Mercer Community Center at 1015 Beech Hill Road, Mercer, Maine 04957.*
